

NONIUS.APPS | NONIUS MOBILE

MOBILE APP FOR THE GUEST

Mobility has arrived in hospitality and Nonius will help shape a new way to enhance hotel guest experience whilst providing ways for the hotel save costs and differentiate its offer.

NONIUS MOBILE is a product from NONIUS.APPS family that runs on the guest smartphone or tablet and provides the guest with information and entertainment, and guest room control.

An app that brings in efficiency through automation of checkin, checkout, booking and payment of services.
